LIFEFORM®

STANDARD FEATURES

Brezza Mesh-Back Series

(MODELS 180 & 180B)

The Brezza series is a versatile seating solution, expertly designed to fit any professional setting. Its standard breathable mesh back is ideal for the focused work of home offices and cubicles, while an optional upholstered cover creates a more formal, uniform look suitable for boardrooms and corporate environments.

Brezza Basic (model 180B) Shown in Intuition Slate

Brezza (model 180) Shown in Bresa Ultrafabric® Black

BREZZA BASIC (MODELS 180B)

MESH-BACK
Mesh-Back Chairs offer breathable comfort, modern aesthetics, and a tailored ergonomic fit.

ADJUSTABLE LUMBAR SUPPORT
The padded lumbar support easily adjusts to provide optimal lumbar support and personalized comfort.

3D HEIGHT AND WIDTH ADJUSTABLE ARMS
Soft Polyurethane provides a comfortable arm support surface with functions that offer side to side pivot motion and forward and backward sliding movement. The arm adjusts easily to adapt to your body for personalized support, reducing shoulder strain and promoting proper arm alignment, no matter your size or seating position.

CONTOUR SEAT
Sculpted to align with your body's natural contours, it reduces pressure points and encourages proper posture, delivering lasting comfort, even during long hours of sitting.

ADJUSTABLE SEAT HEIGHT
Adjusts easily to accommodate the user's height and preference. Promoting proper circulation, knee alignment, and balanced posture for all-day comfort.

VARIABLE TILT & TILT LOCK FUNCTIONS
Even forward to back rocking with customizable recline resistance, ability to lock the chair in infinite positions, supporting dynamic movement or stable positioning for optimal comfort and focus.

SIDE TILT TENSION CONTROL
Conveniently located for easy access, this control lets you fine-tune recline resistance to match your body weight and movement style, ensuring balanced support and personalized comfort.

FORWARD TILT & LOCKOUT FEATURE
Encourages a healthy, forward-leaning posture during focused activities like typing, and can be locked in either the Forward Tilt or Level position for optimal support and stability.

FIVE STAR BASE AND DUAL WHEEL CASTERS
Crafted from durable nylon resin for strength and stability, the base ensures smooth, quiet movement and long-lasting performance.

BREZZA (MODELS 180)

All the same options as the basic, Plus...

MEMORY FOAM SEAT & ARM PADS
High-performance memory foam responds to your body's temperature and contours, relieving pressure points and enhancing circulation for lasting comfort and support.

HEIGHT AND WIDTH ADJUSTABLE ARMS
Easily adapt to your body for personalized support, reducing shoulder strain and promoting proper arm alignment, no matter your size or seating position.

SMART CORE™ SEATING TECHNOLOGY
Combines high-density support foam with pressure-relieving memory foam to deliver personalized comfort, promote proper posture, and reduce fatigue during extended sitting - a cornerstone of our ergonomic design.

ADJUSTABLE SEAT HEIGHT AND DEPTH
Easily adapts to your body size and leg length, promoting proper circulation, knee alignment, and balanced posture for all-day comfort.

LIFEFORM®

UPGRADE OPTIONS

Brezza Mesh-Back Series

(MODELS 180 & 180B)

Brezza 180 Shown as Mesh-Back in Ultrasuede® with Memory Foam Ergo-M Arm Pads and Adjustable Latitude Headrest

Brezza 180 Shownas covered back in Brisa Ultrafabric® with Memory Foam Covered Back, Memory Foam Ergo-M Arm Pads and Adjustable Latitude Headrest

BREZZA BASIC (MODELS 180B)

Standard Brezza 180 options are available as upgrade options for the basic model.

MEMORY FOAM SEAT

High-performance memory foam responds to your body's temperature and contours, relieving pressure points and enhancing circulation for lasting comfort and support.

MEMORY FOAM BREZZA ARM PADS

Pressure-relieving arm pads conform to forearms for enhanced comfort, while the swivel function adapts to movements, providing ergonomic support for various tasks and seated positions.

ADJUSTABLE SEAT DEPTH

Easily adapts to your body size and leg length, promoting proper circulation, knee alignment, and balanced posture for all-day comfort.

BREZZA (MODELS 180B & 180)

ADJUSTABLE LATITUDE HEADREST

This headrest offers easy, customized positioning and a pressure-relieving LIFE-Foam™ cushion for exceptional neck support and all-day comfort.

COVERED BACK

Choose your material to put over the mesh of the backrest. Ensures the slim lines of the mesh-back aesthetic, but allows you to customize your chair's appearance to the next level.

MEMORY FOAM BACK

Extremely comfortable memory foam expertly placed over the mesh suspension ensures long-lasting comfort and extra support. (Covered Back upgrade is mandatory with this option)

MEMORY FOAM ERGO-M ARM PADS

Pressure-relieving arm pads conform to forearms for enhanced comfort, while the swivel function adapts to movements, providing ergonomic support for various tasks and seated positions.

PERSONALIZED UPHOLSTERY

Choose from an extensive selection of materials, including premium and standard leathers, Ultrafabrics®, Ultrasuede®, high-performance fabrics, or even your own customer-supplied material, for a truly tailored look and feel.

CONTRAST PIPING

Elevate your chair's design with custom accent details adding sophistication and a distinctive, personalized touch.

MONOGRAM & CUSTOM EMBROIDERY

Add a distinctive, personal touch with your own logo or design, or choose from our curated selection of monograms. This exclusive customization option sets your chair apart, offering a level of personalization rarely found in office seating.

ALUMINUM BASE UPGRADE

Elevate your chair with a sleek, modern aluminum base, engineered for strength, durability, and a contemporary aesthetic that complements any professional workspace.

CASTERS

Choose from a wide selection of caster styles tailored to your preferences, workspace needs, and flooring type, offering both function and aesthetic flexibility.

THERMAGUARD™ TEMPERATURE REGULATING TECHNOLOGY

Advanced Phase Change Materials (PCMs) actively absorb and store excess body heat as you sit, helping maintain a balanced, comfortable temperature and preventing overheating during extended use.
