LIFEFORM®

TAILORED ELEGANCE FOR THE MODERN WORKPLACE

PALISADES CONFERENCE

(MODELS 4010 & 4610)

Tailored Elegance for the Modern Workplace

If you've ever sat through a long meeting in an uncomfortable chair, you know the toll it takes on your focus, and your body. At LIFEFORM, we believe your seating should support you, not distract you. That belief began five generations ago with handcrafted saddles built for endurance and support. Today, that same philosophy lives on in every chair we build.

The Palisades Conference Series was created for decision-makers, leaders, and professionals who expect more from their workspace. With two versatile designs, upholstered Mid-Back or breathable Mesh-Back, you'll find comfort that fits your environment, your posture, and your presence.

PALISADES CONFERENCE SERIES

Set the tone in your boardroom or cultivate inspiration in your office sanctuary, LIFEFORM delivers what mass-produced chairs cannot: timeless design, bespoke comfort, and enduring value. Every Palisades chair is crafted to elevate the way you sit, work, create, and lead.

KEY FEATURES

PALISADES CONFERENCE MESH-BACK

(MODEL 4010)

- ***Gently Contoured Foam Seat***
  Supports circulation and reduces pressure on legs during long meetings
- ***Weight-Activated Flex Mechanism***
  Weight-activated flex mechanism seamlessly adjusts the recline resistance to suit your body, ensuring perfect support every time you take a seat
- ***Memory Foam***
  High-performance memory foam responds to your body's temperature and contours, relieving pressure points and enhancing circulation for lasting comfort and support
- ***Sleek, Lightweight Profile***
  Moves easily and keeps the room visually open
- ***3D Adjustable Polyurethane Arm Pads***
  Simple arm adjustments for personalized positioning

MODULARITY

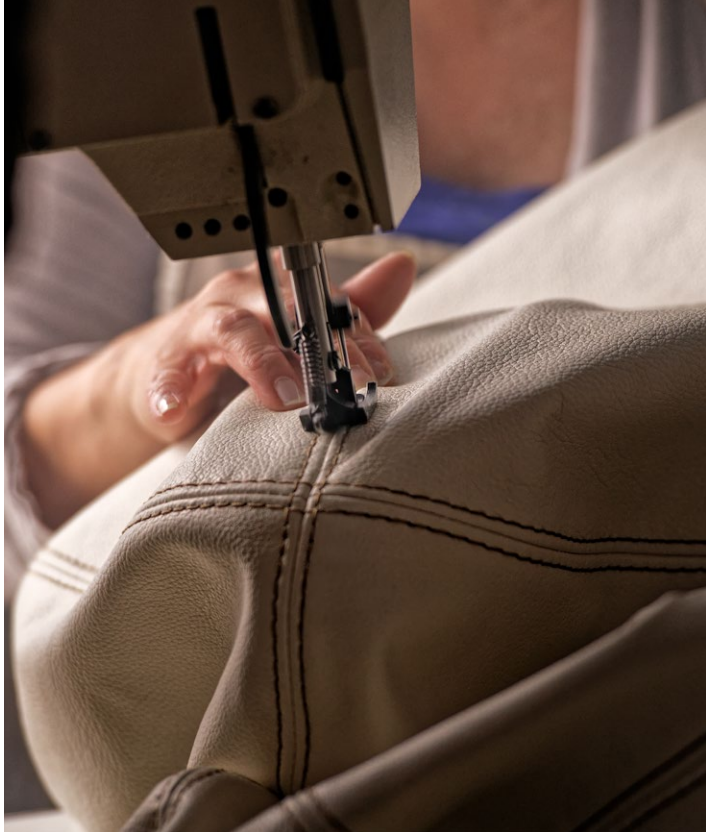
The Palisades series can be tailored with a variety of upholstery materials, finishes, and ergonomic upgrades.

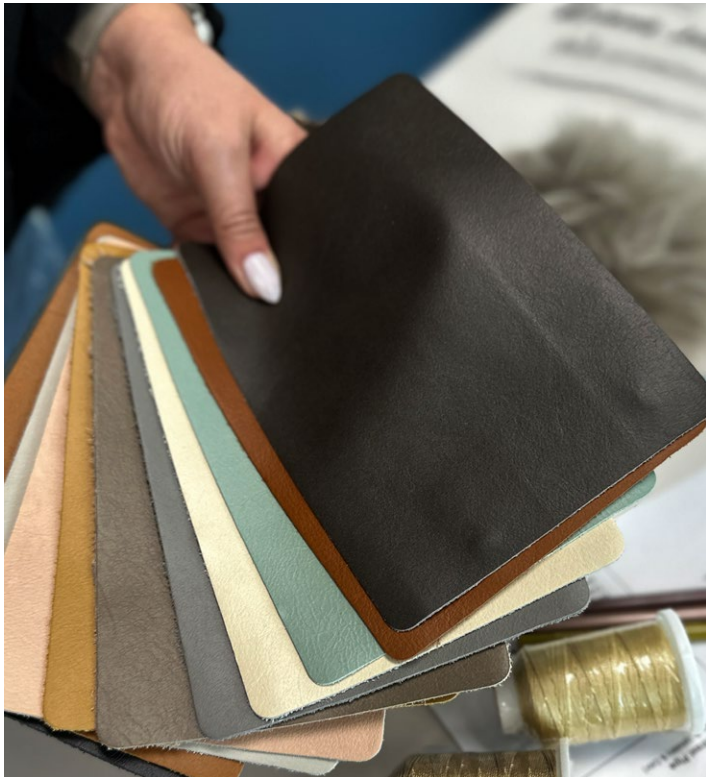
Choose from premium fabrics, refined trims, and adjustment options to create a chair that fits your workspace and the way you work.

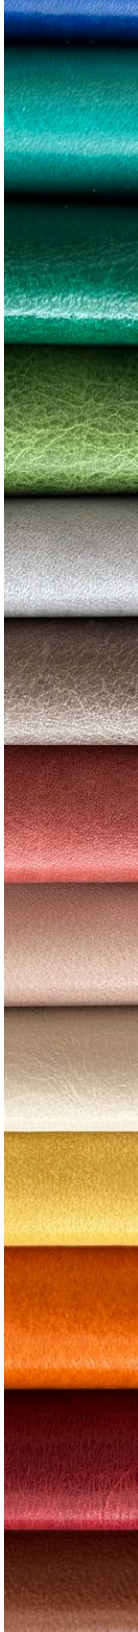
Adjustable Mesh or Latitude Headrest for Cervical Support

Caster Options

Temperature Regulating Technology







STYLE WITHOUT COMPROMISE

Your chair should say something about you. That's why we build each chair by hand, one at a time, in our Canadian workshop. No two bodies are the same, and neither are our chairs. From rich leathers to performance fabrics, every detail is tailored to your personal style, workflow, and comfort.

SUSTAINABILITY

We believe in building fewer, better things.

By sourcing responsibly, minimizing waste, and designing chairs for long service life, we create products that support both your comfort and the environment.

INNOVATION

Every LIFEFORM chair reflects decades of ergonomic learning.

From pressure-relieving foam systems to intuitive adjustment features, The Palisades Conference series helps you stay supported, aligned, and comfortable throughout the day.
