LIFEFORM®

ESSENTIAL COMFORT. EVERYDAY PERFORMANCE.

PALISADES CLASSIC & ELITE

(MODELS CLASSIC 4093 & 4693 – ELITE 4094 & 4694)

Tailored Comfort for the Way You Work

Spending hours in the wrong chair isn't just uncomfortable, it wears on your focus, posture, and energy. At LIFEFORM, we believe your chair should work with you, not against you. That belief was born generations ago, when our family first began handcrafting saddles, designed for balance, support, and endurance. Today, that same philosophy shapes every chair we build.

The Palisades Elite and Palisades Classic models bring that legacy into your daily workflow. With sculpted comfort, refined style, and ergonomic support where it matters most, these chairs are made for those who sit with intention, whether you're in deep focus or moving between tasks.

Available in Mid-Back and Mesh-Back designs, each one is built to support your body and reflect your style, so you can sit well, feel good, and get more out of your day.

EVERYDAY ERGONOMICS. ELEVATED.

The Palisades Elite and Palisades Classic are designed for real-world comfort. With thoughtful ergonomic features, handcrafted details, and your choice of breathable mesh or fully upholstered backrests, each chair offers personalized support without sacrificing style.

KEY FEATURES

PALISADES CLASSIC MESH-BACK

(MODEL 4093)

- ***High-Density Foam Seat***
  Firm, supportive cushioning for balanced pressure relief
- ***Contour Seat***
  Sculpted to align with your body's natural contours, it reduces pressure points and encourages proper posture

CRAFTED FOR COMFORT. DESIGNED TO MOVE WITH YOU.

The Palisades Elite and Classic chairs are built to support the way you sit, not the other way around. With ergonomic features that adjust to your body and posture, each chair helps reduce strain, improve alignment, and keep you comfortable through every focused task, deep-thought moment, or day-long stretch at your desk.

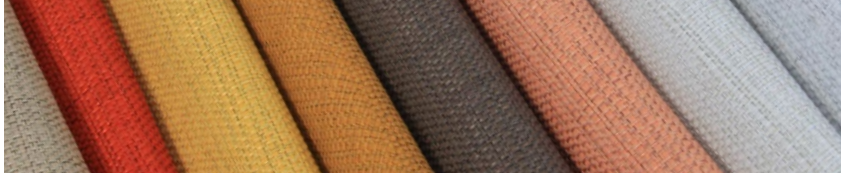
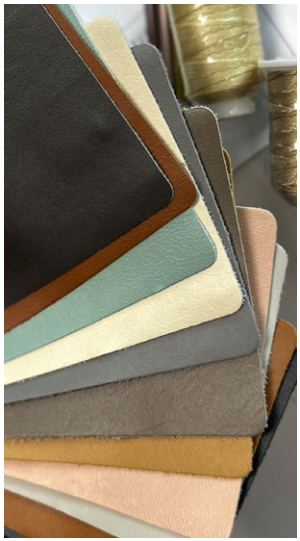
STYLE THAT FITS YOUR SPACE

Your chair should feel like it belongs, both to your space and to you. Every Palisades chair is built by hand in our Calgary workshop, with materials and finishing details chosen to reflect your personal style and daily routine.

Select from rich leathers, high-performance fabrics, and customizable accents like contrast stitching or even two-tone combinations. Whether your space leans classic, modern, or somewhere in between, your chair becomes more than a place to sit, it becomes part of your environment and the way you work.





SUSTAINABILITY

Choosing well-made products is one way to care for what matters. We use durable materials, build to last, and reduce waste wherever possible, because good design should support both your well-being and the planet.

INNOVATION

Comfort shouldn't be complicated.
From pressure-relieving foam to intuitive ergonomic adjustments, every feature is designed to work quietly in the background, so you can sit well and stay focused, without having to think about it.
