LIFEFORM®

STANDARD FEATURES

Legacy Executive High-Back
(MODEL 900)

The Legacy Executive High-Back Office Chair delivers timeless comfort and refined support for discerning professionals. Crafted for durability and everyday performance, it features a comprehensive selection of ergonomic adjustments, ensuring a tailored fit and exceptional comfort that stands the test of time.

Legacy Executive High-Back (model 900) Shown in Tribeca Cream Premium Leahter

BUILT-IN HEADREST
Integrated into the High-Back (2390) model to cradle and support the neck, reducing muscle strain and promoting alignment, especially during reclining or extended sitting.

LATERAL SHAPED BACKREST
Ergonomically contoured to follow the natural curve of your spine, providing full back support, not just in the center, to promote better posture and all-day comfort.

MEMORY FOAM BACK & SEAT
High-performance memory foam responds to your body's temperature and contours, relieving pressure points and enhancing circulation for lasting comfort and support.

HEIGHT ADJUSTABLE RATCHET BACKREST
Easily customizes backrest height to fit users of all sizes, ensuring optimal lumbar support and personalized comfort.

SCHUKRA® LUMBAR SUPPORT
Easily adjusts to fit your unique spine shape, allowing you to increase or decrease lower back curvature for personalized support, promoting healthy posture and reducing lumbar fatigue.

INDEPENDENT ADJUSTABLE BACK ANGLE
Allows you to fine-tune the backrest angle while seated, providing personalized support, reducing spinal pressure, and encouraging healthy posture.

MEMORY FOAM ARM PADS WITH SWIVEL FUNCTION
Pressure-relieving arm pads conform to forearms for enhanced comfort, while the swivel function adapts to movements, providing ergonomic support for various tasks and seated positions.

HEIGHT AND WIDTH ADJUSTABLE ARMS
Easily adapt to your body for personalized support, reducing shoulder strain and promoting proper arm alignment, no matter your size or seating position.

CONTOUR SEAT
Sculpted to align with your body's natural contours, it reduces pressure points and encourages proper posture, delivering lasting comfort, even during long hours of sitting.

SMART CORE™ SEATING TECHNOLOGY
Combines high-density support foam with pressure-relieving memory foam to deliver personalized comfort, promote proper posture, and reduce fatigue during extended sitting - a cornerstone of our ergonomic design.

KNEE TILT CONTROL MECHANISM
Pivots from just behind the knees to create a smoother, more natural recline while keeping your feet securely on the floor. This design reduces leg strain and enhances stability, delivering effortless movement and all-day comfort with long-lasting durability.

ADJUSTABLE SEAT HEIGHT AND DEPTH
Easily adapts to your body size and leg length, promoting proper circulation, knee alignment, and balanced posture for all-day comfort.

VARIABLE TILT, TILT TENSION & INFINITE TILT LOCK FUNCTIONS
Smooth rocking and customizable recline resistance, ability to lock the chair at any angle, supporting dynamic movement or stable positioning for optimal comfort and focus.

SIDE TILT TENSION CONTROL
Conveniently located for easy access, this control lets you fine-tune recline resistance to match your body weight and movement style, ensuring balanced support and personalized comfort.

FORWARD TILT & LOCKOUT FEATURE
Encourages a healthy, forward-leaning posture during focused activities like typing, and can be locked in either the Forward Tilt or Level position for optimal support and stability.

FIVE STAR BASE AND DUAL WHEEL CASTERS
Crafted from durable nylon resin for strength and stability, the base ensures smooth, quiet movement and long-lasting performance.

UPGRADE OPTIONS

Legacy Executive High-Back

(MODEL 900)

Legacy Executive High-Back (model 900) Shown in shown in Hudson Leather, Acorn and Lager,

Legacy Executive High-Back (model 900) Shown in Harness Titanium Premium Leather.

PERSONALIZED UPHOLSTERY

Choose from an extensive selection of materials, including premium and standard leathers, Ultrafabrics®, Ultrasuede®, high-performance fabrics, or even your own customer-supplied material, for a truly tailored look and feel.

MONOGRAM & CUSTOM EMBROIDERY

Add a distinctive, personal touch with your own logo or design, or choose from our curated selection of monograms. This exclusive customization option sets your chair apart, offering a level of personalization rarely found in office seating.

CONTRAST PIPING, STITCHING AND QUILTING

Elevate your chair's design with custom accent details and intricate patternwork, adding depth, sophistication, and a distinctive, personalized touch.

MULTIPLE UPHOLSTERY OPTIONS

Customize your chair with contrasting colors and optional patternwork for a bold, personalized look that highlights your unique style.

UPHOLSTERED ARM SLEEVES

Designed to conceal the standard plastic arm, these custom-upholstered sleeves enhance the chair's aesthetic, providing a polished, cohesive finish that elevates the overall look.

VARIOUS SEAT OPTIONS

Choose from wider, deeper, or more compact seat sizes to suit your body type and preferences. Each option features temperature and pressure-sensitive LIFE-Foam™ memory foam for personalized comfort and optimal support.

HIDDEN COCCYX CUTOUT

Discreetly designed, the rear section of the seat foam can be easily removed for comfort, or replaced when no longer needed, alleviating pressure on the tailbone and offering adaptable support for lower back and coccyx relief.

ULTIMATE WOOD UPGRADE

Handcrafted wood base, arm-pad trim, and matching upholstered arm sleeves combine to create a warm, luxurious finish. Available in a variety of wood stain options to perfectly complement your chair and workspace.

ALUMINUM BASE UPGRADE

Elevate your chair with a sleek, modern aluminum base, engineered for strength, durability, and a contemporary aesthetic that complements any professional workspace.

CASTERS

Choose from a wide selection of caster styles tailored to your preferences, workspace needs, and flooring type, offering both function and aesthetic flexibility.

THERMAGUARD™ TEMPERATURE REGULATING TECHNOLOGY

Advanced Phase Change Materials (PCMs) actively absorb and store excess body heat as you sit, helping maintain a balanced, comfortable temperature and preventing overheating during extended use.
