LIFEFORM®

STANDARD FEATURES

Lifestyles Mid-Back Chair

(MODELS 8694 & 8694B)

The Lifestyles Series brings together ergonomic support and clean, versatile design, offering comfort that fits naturally into both work and living environments. With LIFEFORM's contoured seat and supportive backrest, it helps you stay comfortable whether you're focused on tasks, taking calls, or shifting through a busy day.

Lifestyles (MODEL 8694) Shown in DreamWeave

Lifestyles (MODEL 8694) Shown in Bresa Ultrafabric® Ash

LIFESTYLES MID-BACK BASIC (MODEL 8694B)

HEIGHT ADJUSTABLE RATCHET BACKREST
Easily customizes backrest height to fit users of all sizes, ensuring optimal lumbar support and personalized comfort.

3D HEIGHT AND WIDTH ADJUSTABLE ARMS
Soft Polyurethane provides a comfortable arm support surface with functions that offer side to side pivot motion and forward and backward sliding movement. The arm adjusts easily to adapt to your body for personalized support, reducing shoulder strain and promoting proper arm alignment, no matter your size or seating position.

CONTOUR SEAT
Sculpted to align with your body's natural contours, it reduces pressure points and encourages proper posture, delivering lasting comfort, even during long hours of sitting.

ADJUSTABLE SEAT HEIGHT
Adjusts easily to accommodate the user's height and preference. Promoting proper circulation, knee alignment, and balanced posture for all-day comfort.

VARIABLE TILT & TILT LOCK FUNCTIONS
Even forward to back rocking with customizable recline resistance, ability to lock the chair in infinite positions, supporting dynamic movement or stable positioning for optimal comfort and focus.

SIDE TILT TENSION CONTROL
Conveniently located for easy access, this control lets you fine-tune recline resistance to match your body weight and movement style, ensuring balanced support and personalized comfort.

FORWARD TILT & LOCKOUT FEATURE
Encourages a healthy, forward-leaning posture during focused activities like typing, and can be locked in either the Forward Tilt or Level position for optimal support and stability.

FIVE STAR BASE AND DUAL WHEEL CASTERS
Crafted from durable nylon resin for strength and stability, the base ensures smooth, quiet movement and long-lasting performance.

LIFESTYLES MID-BACK (MODEL 8694)

All the same options as the basic, Plus...

SCHUKRA® LUMBAR SUPPORT
Easily adjusts to fit your unique spine shape, allowing you to increase or decrease lower back curvature for personalized support, promoting healthy posture and reducing lumbar fatigue.

MEMORY FOAM SEAT
High-performance memory foam responds to your body's temperature and contours, relieving pressure points and enhancing circulation for lasting comfort and support.

MEMORY FOAM ARM PADS WITH SWIVEL FUNCTION
Pressure-relieving arm pads conform to forearms for enhanced comfort, while the swivel function adapts to movements, providing ergonomic support for various tasks and seated positions.

HEIGHT AND WIDTH ADJUSTABLE ARMS
Easily adapt to your body for personalized support, reducing shoulder strain and promoting proper arm alignment, no matter your size or seating position.

SMART CORE™ SEATING TECHNOLOGY
Combines high-density support foam with pressure-relieving memory foam to deliver personalized comfort, promote proper posture, and reduce fatigue during extended sitting - a cornerstone of our ergonomic design.

ADJUSTABLE SEAT HEIGHT AND DEPTH
Easily adapts to your body size and leg length, promoting proper circulation, knee alignment, and balanced posture for all-day comfort.
